Subject: Bill to extend emergency powers to 30 April 2022
Date: Wednesday, 30 June 2021 2:12:56 PM

To whom it may concern,

I am a resident of Queensland from [REDACTED].

I am writing with regard to the bill to extend Qld governments emergency powers to 30 April 2022. This is NOT okay with me. You should not be extending your emergency powers.

State of emergency powers are not meant to be extended to give a government the excessive powers to do whatever they want for however long they want. This is absolutely against freedom and liberty and needs to be stopped.

There is no need for these emergency powers. There is no emergency. This bill mentions widespread outbreaks overwhelming health systems. This has not happened, and will not happen, if we take care of our population through proven methods for this virus (HCQ and Ivermectin). If the government cannot handle this situation without these emergency powers, they need to hand over their leadership to someone who can.

I do not wish to have my movement restricted, I am not a criminal and do not wish to be treated as one. We the people can take responsibility for our own health.

Thank you for listening to your constituents who you SERVE.
