Subject: OBJECTION TO THE PROPOSED QLD BILL TO EXTEND EMERGENCY POWERS TO 30 APRIL 2022
Date: Tuesday, 6 July 2021 8:45:39 PM

Hi Minister of Health, Yvette D'Ath,

**RE: OBJECTION TO THE PROPOSED QLD BILL TO EXTEND EMERGENCY POWERS TO 30
APRIL 2022**

Please accept this email as my strong opposition to the proposed bill to extend emergency powers until APRIL 2022.

I find this absurd and ridiculous and an over reach of government power. Our government is supposed to work for the people and all this does is impose restrictions on our freedoms. I have no issue with your making health **recommendations only** to the elderly and immune compromised and even the general public, but to enforce mandates like masks, lockdowns and QR Code check-ins is over reach.

If the state of emergency extends to April 2022, we will have been under this SOE for over 2 years. All mandates and regulations came out with the initial premise of 'two weeks to flatten the curve' and there is now no end in sight. The government appears to be using the pandemic to control the people and I do not consent. If it was solely about our health, Ms Health Minister, you would be making health and lifestyle recommendations to maximise our ability to more effectively ward off the virus and improve our health overall. Lockdowns and mask mandate come with so many health issues of their own including mental, and emotional as well as stress regarding income and access to other family and friends.

Again, my strongest objections!!

Regards
