The Chairman,

Why is the QLD parliament drafting Legislation that is only relevant to one Council  
. ( Rule of Law)

Has the Governments procrastination given a window of time to anyone involved  
in boondoggling an opportunity to make it more difficult for the administrators.

The honest broker in this matter Jo Miller MP has raised issues for the last decade  
why have previous Ministers ignored theses warnings. Will the dept be talking  
with Ms Miller.

How will this legislation improve governance of local gov in the long term across  
QLD .

I see consultation with the LGAQ ,the LGAQ were holding up Ipswich CC as the  
model ,so caution needs to be executed when talking advise from LGAQ ,

LGAQ organised Paul Pissale to travel around QLD giving advise to other  
Councils, this highlights LGAQ agenda .

Will all local government though legislation be required to get back to basic  
services , stopped from forming \$2 companies and trying to be entrepreneurial  
with ratepayer money .

Disappointed this poorly drafted Legislation does not go any way to improving the  
governance of Local Government in QLD into the future .

Ian Rickuss [REDACTED]
