Committee Secretary Economics & Governance Committee

Dear Sir/Madam,

I strongly disapprove of the proposed sacking of Ipswich City Council councillors.

The councillors have been elected by the people to lead our city.

The State Government Minister has no right to sack a councillor who has not been charged with anything and also has not been proven guilty of anything.

What is happening at the moment is similar to a lynch mob mentality where individuals are punished without trial.

In the interests of democracy I urge you strongly to prevent the minister from sacking the council.

Yours sincerely,
Wayne Kreis
