**Subject:** Mineral and Energy Resources (Financial Provisioning) Bill 2018  
**Date:** Friday, 9 March 2018 9:35:31 AM

---

Unfortunately I do not have the time or computer literacy skills to do a a better researched submission to the above Bill

I have however many years of observing the poor management of the extraction industries and the damage they have had on Australia's ecological resources especially water (fresh (surface and ground) and marine.

I support the proposals put forward by the QLD Environmental Defenders Office as I know they are well considered.
