To whom it may concern,

Our son is completing Grade 12, studying Chemistry and Physics and along with others, we are concerned about the Qld school Assessment for EEI's.

Our son is a straight A student but finds there is too much work for Physics and Chemistry EEI's. If smart, hard-working, eager kids take days and days to complete these, it must take average kids even longer. The teachers must also take days to mark drafts and then final copies.

On the other hand, he is happy with both Maths B and Maths C assignments and exams. Their content and amount of written work required is fine.

Kind Regards
Megan
