Hi Sue,

As mentioned this morning, using detailed data from the Australian Bureau of Statistics Labour Force Survey, employment projections for the retail industry in Queensland, through to November 2019, are as follows:

November 2014: 249,100

November 2019: 266,100

Projected employment growth: 17,000 (6.8% growth rate)

In addition to this, I also provided the figure that the National Retail Association represents approximately 6,000 retail outlets in Queensland, from of our 19,000 national membership. The exact number is 5,392.

Should you need any additional information at this stage, please let me know, and I would be happy to assist.

Regards  
Cameron
