Subject: Fluoridation Bundaberg Water

The Hon Campbell Newman MP

I hereby request that the Bundaberg Regional Council is granted exemption from being forced to add fluoride to our water supply under the 2008 Water Fluoridation Act.

Apart from the health and moral aspects of this practice, in the present climate of rising costs the added costs to implement and maintain ten fluoride plants in our region would place a huge burden on many low income rate payers. As there is little proof of improved dental health and no guarantee of health safety, the money allocated for this project could be directed towards a more worthy cause.

Yours faithfully

Pat Morrissy
