Dear Sirs,

FLUORIDATION SMALL TOWNS - ✓

FLUORIDATION LARGE TOWNS - X

So much for your pathetic logic and supposed cost cutting + mass unwanted medication, FULL SHIP.!! My apologies for my voting for you.!

Also for your ressurecting the dangerous mining policy, of digging up a highly dangerous fuel, - for which end product there is still no satisfactory disposal. Further disposal of logic for the almighty dollar. (Uranium).

Waste money if you wish on fluoride. Many will cease drinking fluoridated water when it's introduced, and get other supplies. Follow the idiot leaders on both counts, I'm not with you.

Sincerely,
