**Submission to the Finance and Administration Committee on the Inquiry into the operation of Queensland's workers' compensation scheme
- Comment on reducing red tape proposal**

Recommendations

We support the recommendation submitted by the Workers' Compensation Regulation Authority (Q-Comp), removing the requirement for claims to be lodged with the insurer until 50% of QOTE is reached.

Discussion

This process would both reduce cost and time for our business and businesses in general.

Yours sincerely
Northside Trusses and Frames

Chris Hay
General Manager
