 The Emerald Branch of the Australian Labor Party.

Re: Bill to return basic Worker's Rights;

Dear members.

At our Branch Meeting on 14th May 2015 the following motion was passed:

"That the basic fundamental worker's rights that were made unenforceable be returned. We respectfully request that the Committee pass this Bill.

We believe this is imperative to restore confidence in our state. Never underestimate the importance of job security to all and their families. Outsourcing of work is an outrage to those who can and do , do the task competently. We have noticed an unhealthy instability among our friends who remain with and are working in Public Service. They are hopefully looking to this change of Government to restore what they have lost. The fundamental right of "Freedom of Association" also is imperative and should not be feared by any fair minded employers , be they the public sector or private.

The claim to bring back "rights" that it will lead to job losses is ridiculous - there has already been plenty of that!

Thankyou
 Regards
 Colleen Dobson
