To: Finance and Administration Committee;

To Whom it may concern

Smoke and cancer does not discriminate between the colour of the truck I go to fight a fire in.

I have been in the Mount Campbell RFB for 15 years, I have been the Training Officer for 6 years and Treasurer for the last two.

How could it ever be considered fair that Volunteer fire fighters need to attend 150 fires and full time and part time fire-fighters only have to attend 1 fire to be eligible to be supported in the same manner should they be injured on the job.

This will be the last straw for myself and many other fire-fighters I know, we have had enough of being taken for granted!

Your sincerely

Robert Gratwick
