SUBMISSION CONCERNING OLYMPIC & PARALYMPIC GAMES ARRANGEMENTS

I wish to congratulate the State Government on reaching a sound decision in this matter by the surest and most secure path- having the more grandiose and untested alternatives proven both financially incapable and socially unsuitable by public examination of their implications and impacts.

Together with the beneficial implications of a forthcoming State Election this has now produced an outcome that is economically viable in radically reduced costs, socially desirable in enhanced legacy provisions and beneficial to the state's own sporting organisations in improved facilities.
