### **Submitter Comments:**

I would like to submit my horror at the positioning of Australia, which includes all States at the total disregard of the values that have made our Nation great. From the Child abuse on the minds of our children to the blatant disregard of spiritual values. Everyone was born with a moral understanding between right and wrong yet those what are supposed to be intellectually capable give in to mindless pressure that those with agendas to further their mindless and selfish cause with noises that decision makers fall for without any regard for the truth and wellbeing of our Nation, especially children and the vulnerable. Please think for awhile and give more regard to the whole well-being of our society and take time to look at history of Nations who have adopted this approach of making evil good and good evil. If leaders can think a little deeper, they will have to answer in time for three conduct. God will always have the final say even if you don't believe in Him. Respectfully Yours and I pray a sense of Godliness and common sense will prevail.
