As a tenant in a house that not structurally sound as my floors and not flat.I have 2 different direction, my son floor has sunken and kitchen has sunken. why is it. No one wants to fix.I been trying since 2021 to get fixed. As I cant move anywhere now days as rents are out on my income as I am on a pension. Should the house fall on me. My kids will sue. why cant council make owner fix. Is it because they don't have to as they are a be above the law. At least RTA laws anyway.
