**Subject:** Submission re Qld govt response to Covid-19  
**Categories:** Saved in Objective, Submission

We would like to congratulate the Govt. for their response the Pandemic. Qld is doing well. We are over 80 & have no difficulty with the restrictions which were put in place. Hopefully people will continue to adhere to good hygiene without panic buying. We are extremely happy that travel is now allowed in Qld but hope that state borders remain closed until other states are better controlled. If 2000 Victorians come up here to escape the cold & use our free hospital system the Virus is likely to recur in our opinion.

John & Pam Williams
