

## **Health and Ambulance Services Committee**

---

**Subject:** FW: Acknowledge Receipt : Tobacco and other Smoking Products (Smoke Free Places) Amendment Bill 2015

**Importance:** High

**From:** John Brown [REDACTED]  
**Sent:** Thursday, 26 November 2015 8:24 PM  
**To:** Health and Ambulance Services Committee  
**Subject:** Tobacco and other Smoking Products (Smoke Free Places) Amendment Bill 2015

I support the intent of this Amendment Bill but suggest it doesn't go far enough. More appropriate would be a total ban in all public places. This would then not require Local Government to make further By Laws.

I suffer from Asthma. I have recently attended a coffee shop and could smell smoke from a person standing in front of the shop next door. I had to use my asthma spray.

Additionally smoking should also be considered a driving hazard as they cannot be driving safely whilst trying to light a cigarette or maintaining two hands on the wheel.
