Subject: Submission re Termination of Pregnancy Bill 2018
Date: Wednesday, 29 August 2018 2:49:31 PM

Dear Committee Members,

I bring to your attention the following three points:

1. It is really shocking that the Termination of Pregnancy Bill 2018 would allow the taking of lives of unborn children for any reason at all, up to 22 weeks.
2. It is utterly disgraceful that, past 22 weeks, even for merely social reasons, an abortion would be legal until birth if two doctors approved.
3. It would be shameful of any government to violate the consciences of some doctors by forcing them to be complicit in abortion by requiring them to refer a woman seeking abortion to a doctor who would be willing to agree to her request.

Sincerely,
Alison Janet Sherrington
