To whom it may concern

My daughter was forced to have an abortion by her boyfriend and his father when she was only 14. She still has not overcome the emotional trauma of this. We as her parents had NO right to know and to protect our child and grandchild. Abortion is illegal in [REDACTED] unless for the safety of the mother. Babies are killed every Monday for convenience sake and not for the safety of the mother. Detectives told me the abortion clinic was doing a service to the community even though it was ILLEGAL.

What will happen if we pass a law to full term.

If we pass this law, more innocent children will die and we haven't got enough young people to grow this country now. They will die because they are the wrong gender. Aren't you lucky this law wasn't around when you were in your mother's womb.

Please say no to murdering babies to full term.
