It is my desire to submit my objection to the proposed Abortion Bills that will be imminently considered in Parliament.

I object to all of the Bills that are being proposed. I am firmly of the belief that human life is formed and exists within an unborn child at 22 weeks gestation. I base this belief upon the fact that a young man who I consider a friend was born at 20 weeks. His potential and soul was certainly fully formed at the time of his birth.

I believe the proposed Bills legalise *Capital Punishment* upon humans who have committed no crime.

I also object to the Bill proposing a 150 metre Safety Zone around Abortion Clinics.

It is unfortunate and ironic that the threshold of the Clinic's front door is where the safety zone stops for the lives that will be terminated within the clinic.

It saddens and upsets me that our current government is showing no leadership in governing in a fair and moderate manner but rather appear to be bending to the whims of left wing lobby groups.

Please register my objection to these Bills.

Regards,

Russell Horton |
