TO WHOM IT MAY CONCERN

I WISH TO EXPRES MY HORROR AT THIS PROPOSED NEW ABORTION LAW.....I know there are times where lives are in danger, but it has been proven that a baby’s brain is operating at 8 weeks.....so anything from then would be CONSIDERED MURDER.....

PEOPLE NEED TO TAKE RESPONSIBILITY FOR THEIR ACTIONS....HAVE THE BABY AND ADOPT IT OUT, MANY PEOPLE WOULD LOVE TO ADOPT HERE INSTEAD OF OVERSEAS. It is all made too hard.....or too easy with all the handouts. Ok for first, but not necessary for 5<sup>th</sup> & seventh child. You only need help setting up for the first....We had none in my era, we even stayed home and raised our own children with family values and consideration for others. Love, family love is important.....not monetary values being the foremost in lives.....
