Dear Secretary

My name is Steve Paroz. I am one of the people living in Bli Bli Electorate. I value you and your work in Queensland Parliament and the responsibility that you have in representing us wonderful people in Queensland. I would like you to very carefully consider the implications of the Termination of Pregnancy that is coming to Queensland Parliament.

When a pregnant woman approaches doctors requesting termination, this decision would not come easily for many women weather it be for financial or psychological hardships that drive that position. I would hope that the law would prevent this procedure from happening and that other options of **counselling** and **adoption** are presented.

There are **many couples unable to conceive** with fertility being a major issue and relying on IVF or overseas adoptions as options for children.

Please I urge you to make the views of your constituents that oppose this legislation known in the debate and I trust that you will make wise choices that benefit all people, including unborn babies.

Yours faithfully
Steve Paroz
