

29th August 2018

Dear Secretary

I am writing to protest about the Queensland Government's determined efforts to decriminalise abortion.

Full decriminalisation means that abortion would be legal in Queensland for any reason at all, which is a very dangerous and extreme situation.

It would increase the number of abortions , which the majority of Australians already think is too high.

More abortions would hurt more women because there is also psychological damage as well. Women considering abortion should have a greater, free, independent counselling service which can advise them of other options.

Finally, because I am a born-again Christian, abortion goes right against all that God ordains in His Word.

Sincerely

M. James

(Mrs Maureen James)
