Subject: [SPAM ?] NO to Termination of Pregnancy Bill 2018
Date: Monday, 3 September 2018 5:08:19 PM
Importance: Low

Dear Committee,

As a Queenslander of 67 years I wish to make my submission to you; that as human beings you and I were allowed to live, from conception to the present day, so what gives us the right to deny this right to another human being.

Every baby is a separate human being, even though it grows in its mother's womb, it is still a separate individual. The mother was given the right to live, so she doesn't have the right to deny her child the same right. The right to life is a basic human right. The mother of course may need lots of assistance to carry and look after her baby but that still doesn't justify killing the baby.

I plead with you on behalf of humanity to say NO to this Termination of Pregnancy Bill. Please don't disgrace Queensland by allowing this Bill to become law.

Yours sincerely
Ellen Morosini
