I have voted Labor for the last 50 years

But I believe the new laws is the murder of unborn children  
In this day and age with the contraception means that are available to both male and female  
an unplanned pregnancy except in the case of RAPE is just laziness  
I advise the lawmakers in our state to watch the report last week of a baby that was born at  
22 weeks by natural causes that survived and is doing well

I feel sorry for our lawmakers that vote/support this new bill.

In the quiet time that comes to us all as we get older and we reflect on what we have  
achieved in our life and you realise that your actions have caused the death of thousands  
of innocent children. There will not be enough alcohol or drugs for them to get a good  
night sleep. And their souls will never rest

I could never vote Liberal  
I will become one of the many Voters that won't vote at all  
Bernie Maguire
