Dear Sir/Madam,

I can't believe that Australia has such harsh - horrible abortion laws!!!!

I have 3 children, 6 grandchildren and 2 greatgrandchildren and to see and feel how they are growing and moving in your own body is the greatest sign of life, how can that be denied?

Why do we want to kill so many babies? It is life that gets murdered and that even right up to birth!?!?!
Unbelievable!!!!

Life starts right after conception!

This bill has to be changed and if it is only because of the regret that these mothers have after the abortion happened-it is very tragic!!!

With kind regards

Uta Lippmann
