Dear Minister Trad

It is an absolute disgrace that the Labor party is considering such a disgusting abortion bill.

We are grand parents and have another grand child due at Christmas. The 20 week scan show a perfect baby that is now kicking and a real person. To murder any baby at this stage or later in the pregnancy should involve jail time and nothing less. If a woman cannot prevent an unwanted pregnancy then she should adopt the baby out at full time.

Perhaps it is also time to consider allowing women to charge a fee to waiting couples that would love to adopt a baby. This would be an incentive to go full time and give birth.

We will never ever vote Labor again should this barbaric bill be passed.

regards

Linda & Gary Graham
