> I would employ you to turn down the new changes to the Abortion bill. Please protect those in the womb as there is NO nice way to kill them. We live in a world with double standards where we can watch a TV advert selling products to enhance the development of a foetus and yet on the other hand, callously murder those in veto because of convenience.

Please also recognise the right of those in the medical profession who are pro-life to refuse to terminate a pregnancy.

This new bill will also allow for termination of pregnancy based on the sex of the child. Surely no one thinks that this is right.
