

Termination of Pregnancy Bill 2018 Friday, 31 August 2018 11:39:07 AM

## To the Responsible Committee,

Section 313 of the Criminal Code puts this bill into perspective! (Killing an unborn

## child).

Killing is to destroy life!

To destroy human life is murder!

An unborn child is human!

So this Act is to **legalize** murder!

To describe the act as "termination" instead of "murder," does not alter its true nature. A rose by any other name is still a rose. Likewise murder by any other name is still murder, and murder of the worst kind when the helpless victim is totally innocent of the existing circumstances. Too often

The only excuse to terminate a pregnancy is when it is the only means of maintaining the mother's life. Our society has many childless couples eager to adopt unwanted babies. Why kill them?

With Respect,

John F. Rodgers.
