Termination of pregnancy bill 2018
Tuesday, 4 September 2018 11:09:05 AM

My birth mother wanted to terminate her pregnancy 70 years ago but thankfully someone persuaded her not to, but have me adopted.

I was brought up by a loving adopting family who gave me a good education then sent me to University to do Pharmacy. I have achieved much over my Pharmacy career and may have saved many lives due to intervening in many drug overdose and interaction issues with my patients. Certainly I have saved two lives in the surf when I was younger and an excellent champion swimmer. Now retired with 7 grandchildren who are wonderful Australian citizens like their parents, I am pleading with you not to pass this bill otherwise many valuable and precious lives will be lost.

Sincerely, and thankful to be alive,

Suzanne Watson
