TO WHOM IT MAY CONCERN:

I respectfully submit below my objections to the above Bill and trust that this Bill will be defeated.

*By the time a woman even knows she is pregnant, the embryo has a heartbeat and recognizable limbs. It is not just a jumble of cells, which is a lie that women are being told, so that they can have a 'guilt free' abortion. It is well known medically, that most women who have abortions, suffer a range of emotions afterwards. This includes guilt, depression, regret to name a few. This is a human being that is being destroyed. It appears that most animals have more rights than our unborn babies. And the methods used to bring about an abortion are diabolical. To think that a Bill is before Parliament to extend the existing law beyond 22 weeks up until due date is unbelievable.*

*It is horrifying to think that to abort a late term pregnancy means [REDACTED] of the baby or injecting such a lethal dose of saline into the womb that the [REDACTED]. The foetus feels pain from a very early stage. This amounts to nothing short of infanticide. Is this what our society has come to?*

*Women who find themselves in a situation of an unwanted pregnancy need to be cared for and helped and if at birth, the mother still does not want the baby, she should be encouraged to give the baby up for adoption. There are many desperate couples who would love to adopt a baby but there are just no babies available. Surely this would be the most humane way of helping women.*

***Please vote NO to this horrendous Bill.***

Yours sincerely

Marilyn England
