To the Committee Secretary:

Please register my complete opposition to the "Jackie Trad Abortion Bill".

Under this dreadful bill, Queensland would become a state in which babies who survived an abortion would not be protected.

Under this dreadful bill, Queensland would make it possible for babies to be selected by gender, so that unwanted female or male babies would be sacrificed...

Under this dreadful bill, abortions would be forced upon all hospitals whether they agreed morally or not. This will punish and force out the doctors and nurses (and hospitals) who have a conscience in this matter, making the ideology of womens rights to have abortions superior to the rights of medical practitioners to refuse to kill babies.

Very sincerely,

MJ Duffield
