Subject: Say NO to Jackie Tradd's abortion bill
Date: Monday, 3 September 2018 1:21:50 PM

Hello

I am very distressed and angry to hear about Jackie Trad's abortion bill which I believe is soon to be voted on.

Please do not allow this bill to pass. It is a vile attempt to allow the murder of innocent babies legal. Abortion at any time or stage is abominable but this bill that Jackie Tradd is pushing just plain evil.

I'm not surprised that Labour and the Greens are in bed together, working together to push this garbage. First they tried to make it legal to kill sick/old people with their Euthanasia bill, now they're trying to make it legal to kill helpless babies.

Please, PLEASE strike this bill down so they can't push their vile evil agenda on the Australian public. If that's the kind of society they want, then THEY should get the hell out and go to some other godless country that doesn't care about human life. Australia is not there yet and I pray that we never ever are!

Thank you and Regards
Linda Rackley
