Fwd: Termination of Preg

I write with a heavy heart about the Bill for termination of babies that is coming before the parliament.

I believe that abortion should NOT be criminalised. Adding to this I also believe that we should NOT allow abortions. I also believe that if we didn't have abortions then all the problems the Bill

presents for so many from different walks of life would be taken care of.

At 15 years of age I was raped and consequently had a .child. The pain, embarrassment, hurt, judgement I went through over the coming years

changed my whole outlook on life forever. At 50 years of age I finally met my daughter. I ask you to look deeply into your heart and try to understand what the word LOVE really

means. Those that feel the need for abortion need to be educated or think long and hard about the consequences. Life will change and be better for them if they don't do what I believe to be the wrong way of solving situations.

I thank you most sincerely
