Subject: Petition against the "Termination of Pregnancy Bill 2018"

It is with great concern that I strongly petition the Queensland Government not to legalize the 'Termination of Pregnancy Bill 2018'.

I call on the Government to consider:

1. The necessary wellbeing of their women folk in their most vulnerable situation and allow them better options.
2. That each unborn child has inherent rights. The barbaric late term abortion is outrageous and should be outlawed.
3. Every society that respects human life cannot tolerate the wanton destruction of its unborn as it would forever cease to be considered civilized.

sincerely,
Ms Helen Green
