To whom it may concern, my submission is simple , on the issue of health its Murder whether you call it a foetus or a human . Just because you try and justify it by calling it by another name it remains a human. When does it turn into a human ?

You can justify killing unborn child by calling he or she whatever you like, but if you do where

does it stop . If you pass this bill the Blood of innocent children is on YOUR HANDS

YOU ARE ACCOUNTABLE.
