Anti abortion bill

**Date:**

Monday, 3 September 2018 4:55:01 PM

Good evening,

I am writing to air my disgust at any member of Government who would stand to support such a barbaric bill.

Recently a person was jailed for killing a pregnant mother – jailed for killing two people – how was this possible????

Government members are telling us that unborn children are not children at all.....double standards is you ask me....

Please re-consider the unborn baby AND it's mother. A mother, who at the time possibly thinks this is the best option, but in time to come will totally regret the decision made. Where is the counseling?? I would suggest not any is given as the bill will negate any such decisions a Doctor might deem necessary for the continued mental health of the mother.

The best solution to this so called issue is adoption of the so called unwanted baby. If the Government cares to look at any statistic, they would find numerous couples wishing to adopt....just look at the people going overseas to do just this. Adoption laws surely are an alternative.

Please, please, please – squash this bill before it goes too far and the unborn babies that are killed – their blood is on your hands.

Yours sincerely.

Davena Luxton
