Abortion bill  
Tuesday, 4 September 2018 2:29:37 PM

---

TO WHOM IT MAY CONCERN

Please do not pass the Termination of Pregnancy Bill 2018.

I am opposed to this legislation because:

- It does not give enough protection to expectant mothers who are having emotional and psychological problems.
  - It does not provide support for expectant mothers who are having emotional and psychological problems.
  - It does not treat an unborn baby – from conception to birth – with the full dignity of a person.
  - I would allow abortion after 22 weeks, when a baby would otherwise be issued a death certificate.
  - It does not protect the consciences of medical professionals.
  - People should be allowed to pray and provide information to clients of abortion clinics – this is helpful to the clients as it can provide a real choice and does NOT provide an unsafe environment for anyone.
  - I do not authorise my tax dollars to be spent on paying for any abortion procedures.
  - The availability of abortion increases the risk that women will suffer sexual violence from men who are not prepared to accept the consequences of their actions.
-
