Ending Human  Bill  
Monday, 3 September 2018 7:59:27 PM

---

This Bill is even more extreme than the Pyne Bills which 85% Queensland constituents opposed, so why would we want even worse legislation passed?

These are not "safe access" zones, they are EXclusion zones to prevent pro-life advocates offering support, information to warn pregnant mothers about the dire consequences of abortion and the traumas inherent in PAS - post abortion syndrome.

GPs should have the right not to refer their pregnant patients for abortion AND not to have to refer them to a pro abort GP.
