

Subject:

ABORTION BILL

Date:

Monday, 3 September 2018 8:12:56 PM

To the members of the Queensland Parliament

If this bill goes through it would be the ultimate in child abuse. How can anyone say they are appalled by violence towards children and then pass a law that condones the killing of defenceless children.

Women's health is another argument put forward by pro-abortionists. What about the mental health of women who have an abortion. They have to live with this guilt for the rest of their lives.

Girls who are killed would be grown women in a few years if they were allowed to live – women's rights?

If a woman who is pregnant is killed, the murderer is up for two deaths – hers and the babies.

Don't men (fathers) have rights too. It is their children that are being killed also.

This is a horrendous and vile piece of legislation that dehumanises the people of Queensland.

Mary MacAndrews
