Michael John Holland

I write to urge you to vote down the tabled Termination of Pregnancy Bill 2018.

I strongly disagree with the Qld governments Termination of Pregnancy Bill 2018.

I ask that the Health Committee vote down this bill.

Among many reason why I feel this bill should be voted down, below I have noted how the Qld court has set a precedence in the last month, of identifying a 10 week unborn child as a living human

by convicting the unborn child's father of double murder when he killed the mother. He was given 2 life sentences for the double murder.

In doing this, the court has shown that the unborn child is a living person. You can only be convicted of murder if you kill a living person.

How can a bill be voted into law when the court of the land has already shown that this law will in effect be illegal.

Killing unborn babies is illegal according to the conviction of Brock Wall who killed Fabiana Palhares and her unborn baby.

Here is the link to the news story -

The court records are public so please check this out and when you do I cannot see how you can pass this law.

Kind Regards,

**Michael Holland**
