To the Queensland Minister for Health,

I write to implore that you do not allow this Bill, this abhorrent, reprehensible, atrocious Bill to become law in Queensland.

Our babies are precious, whatever the circumstances are into which they are born.

Is it not incumbent for a good Government to have laws that will protect and care for these babies when they are born into undesirable, difficult circumstances?

So why is it ok for your Government to, instead of looking after the babies, make a law to kill them before they even have a chance?

Minister, does this not make you sick to your stomach that unborn babies can be killed at will, at a whim? Do you not feel the need to protect these babies?

Do you not have a conscience? Do you and your colleagues not have a sense of right and wrong? Is it not wrong to take another human life?

I am at a loss, to think that other women, other mothers in your Government, can possibly think this is ok.

Please do not allow this to happen, it will be an extremely sad indictment on our society and your Government if you do.

Minister, I appeal to your common sense, your better nature.

I beseech you.

Jenny Peters
