Subject: termination of pregnancy bill 2018
Date: Monday, 3 September 2018 5:31:01 PM

Concerning the termination of pregnancy bill that is soon to be before Parliament:

We wish to express our STRONG support for the existing bill to remain as it is.

The proposed changes that are being considered are to us quite barbaric, and are the actions of an uncivilised people. It seems that for an abortion, only “ the rights of the mother” are considered.

What about the rights of the unborn baby?

Where is the justice here?

It is impossible for us to envisage how any human being can bring themselves to abort a near full term baby.

To proceed with the proposed changes would we believe further erode the value we put on human life.

James Graham Walker and Beryl Walker
