I have continually tried signing the defense against the new abortion bill only to have my form not be able to submit each time.

I am against this bill allowing abortions after 22 weeks

I am also pro anyone who is unqualified to have huge fines. However catch 22 not ok with the bill being passed at all. Here are my thoughts....

If doctors are good/brilliant they will almost always be able to find a way to save the woman and child in dire circumstances. The act of aborting a baby by choice for any reason ie convenience, not wanting the particular sex, disablement etc is killing a human. Period. Discrimination against what kind of ailments a baby may have is total inequality. All lives matter! No one had the right to directly by choice take the life of another. Society may struggle with unwanted pregnancies but it is no reason to kill a human. Each living soul deserves to live their life and not have it taken away.

Happy to discuss this further.
