Stop the child abuse

We were not aborted and why should laws be made so that those who we haven't met yet will never have the opportunity to enjoy life and childhood, make memories and friends, fall in love be part of a family, go to school and have an amazing life....

Why would we deny unborn human being the right for their life when they can't even speak for themselves yet.

Who are we if we stand by and let this sacrifice of human life take place, like a satanic ritual of human blood sacrifice is what it's like.

Do not let the evil labour government of Queensland get this law through!!!
For the sake of humankind.

Thanks
Mark
