

**Subject:** [SPAM ?] Against Jackie Trad's Abortion Bill  
**Date:** Monday, 3 September 2018 12:37:08 PM  
**Importance:** Low

---

To whom it may concern,

I suppose everyone has a different view on when 'life' begins, but in my view it's when something starts to grow.

So naturally I don't support this abortion bill which I'm being advised is one of the most radical and extreme abortion laws in the world.

Please don't put your vote to such a thing, that will only bring this Nation under more hardship and selfishness.

Surely, we can create positive ways of dealing with an unwanted pregnancy than killing a living being - whether it's seen as a 'child' yet or not - it's alive and to take a human life is murder, however you put it.

I'm concerned when I read in the bill...

(3) In an emergency, a medical practitioner may perform a termination on a woman who is more than 22 weeks pregnant, without acting under subsections (1) and (2), if the medical practitioner considers it is necessary to perform the termination to save the woman's life or the life of another unborn child.

isn't this a contradiction in terms? So to save the life of another unborn child, it's okay to terminate a child over 22 weeks old?

I know pictures and reports can't be submitted in this vote but I would strongly suggest that before anyone agrees with this bill that they actually watch a termination be performed. That they see how long it can take for a terminated child to die, in a bucket, in another room... alone, and yes there's scientific/video evidence that the 'foetus' feels pain and cries at under 22 weeks.

I don't think a person should do this to an animal let alone an unborn child.

What are we thinking???

When you vote on these types of things, I believe you should be willing and able to be considered to be able to 'do' such a thing - as you are coming into agreement that others can and will be able to do these things. So are you comfortable with performing a termination yourself? Being a part of that? Please consider this, as that's what your vote allows.

Jackie Trad is deceived into thinking this is a solution or freedom for women. It's a death trap. Depression and guilt can follow after a woman after abortion and then what? More tax payers money to help her deal with that.... it's a crazy vicious cycle and again I state there are more creative ways of dealing with an unwanted pregnancy than this abortion bill.

Please vote NO and keep Queensland's hand's clean of this blood that so desperately wants to stain our State!

Yours sincerely
