To Jackie Tradd,

Re the Abortion Bill.

I am writing on behalf of myself + my craft group, <sup>expressing</sup> disgust that you propose this bill and condone the murder of innocent babies. From 8 weeks from conception a baby has a heart beat + therefore is a live human being. If a person were to dismember or poison another person they would be tried for murder but a doctor can do this to an unborn baby + call it abortion. Why can't these babies be born naturally + adopted to families that are unable to have their own babies + desperately want to be parents. This would be less emotionally traumatic on the birth mother than the guilt of abortion + murder.

I, and we, strongly speak out + object to this bill.

Yours sincerely

a Moller.
