Subject: Submission Against the Termination of Pregnancy Bill
Date: Tuesday, 4 September 2018 9:17:16 PM

To the Health Committee,

I write to request that you halt the progress of the termination of pregnancy bill that is currently in its public submissions period. As representatives and legislators of this State a fundamental expectation I, and many other Queenslanders, have of you is that you make laws to protect those Queenslanders who need protection, safety and most importantly a chance in life. This bill does the opposite. An unborn child does not have its own voice, they will rely us for protection, to be their voice. And right now for thousands upon thousands of potential Queenslanders, it's a matter of life or death. Their lives are in your hands.

There is no question that a late term unborn baby is a human. In fact a baby at any stage with a heartbeat is human with its whole life ahead of it. Abortion of these babies is killing. Whether you have an underlying belief system or not, killing is wrong. I asked my kids about this bill and they said just that "the baby is alive and growing, it is wrong to kill it". If primary school kids can identify that basic principle, surely a government can.

Please protect the unborn kids that don't yet have a voice. We have no idea what a positive impact to this world they could bring. They are living beings with a right to continue living, and to grow and succeed.

Kind regards,

Jonathan Lee
