Subject: Termination of Pregnancy Bill 2018
Date: Tuesday, 4 September 2018 9:24:48 PM

To The Secretary,
Health, Communities, Disability Services and Domestic and Family Violence Prevention Committee

I strongly object to this Bill being passed.
It is an invasion of the rights of the unborn child.
The termination of a pregnancy kills an unborn child.
Those in favour say it is their body, and their choice.
However the unborn child is not given a choice.
It is especially wrong for the conditions of the bill which allow the termination of a pregnancy after 22 weeks.

There are thousands who are unable to have children, and this absolutely cruel destruction of a pre-term human being is beyond comprehension.
Those couples would willingly adopt the children whose lives are to be so wantonly terminated.
They deserve love. Their hearts are beating when they are destroyed.
Obviously the conceiving of the child was not given any thought, and it is so unfair to the unborn child to destroy them as an after thought.

I once worked with a girl who had a abortion of an unwanted pregnancy in her twenties.
She attempted suicide as a result of this many years later, as it never left her.
The termination doesn't end with the destruction of the baby, it has mental effects on the mother which are untold.

Please pass my thoughts on to your committee.

Kind Regards,
Margaret Melloy
