Subject: Submission...Pregnancy Termination Bill 2018
Date: Wednesday, 5 September 2018 9:39:28 AM

SUBMISSIONAGAINST THE TERMINATION BILL...IT IS A CONTRA PROPOSAL TO THE FUNDAMENTAL ISSUES OF

THE INTERNATIONAL DECLARATION OF HUMAN RIGHTS!

*The proposed legislation has no heart or empathy for life. There is no opportunity for consent..How can the innocent and defenceless give consent for their lives to be destroyed? The pre-birth lives are afforded no rights!

*A foetus is a human **life**..from conception onwards it develops with all the intricacies,DNA,Genetics,etc.,whether at 10 weeks illustrated by the **Precious Feet at Ten Weeks**(lapel badge) or at any stage onwards to birth.

The foetus is a new separate life to that of the mother;the two are not the same..therefore the new life has a right to live and not to be discriminated against for whatever reason.

*The proposed legislation has far-reaching implications in discrimination e.g.gender selection,state of health,social reasons,etc.

e.g.don't want a boy!...abort!..gross act of discrimination!

Irrespective of any legislation,the fact will remain viz. aborting a precious life will always be a criminal offence!

*In the cultural world of ever increasing violence,the proposed legislation will inevitably increase more acts of violence against the defenceless...The imminent danger....the downhill slide...is that finally there will be disrespect for all of life.

*Such extreme insensitivity indicates lack of compassion,respect for the dignity and worth of a human(foetus) life,no empathy or human-ness...only what *self* wants.

There are extremely rare cases of a pregnant mother's life to be considered over against the foetus(with wide consultation)

*The legislation being proposed,condemns some aspects and opportunities for human caring interaction and support for precious pregnant women e.g.150 metre exclusion zone..What? I can get fined or put in Jail for this???(help,counselling,etc.)

..Or a Dad wanting to be a dad....and no consultation?

*A National Tragedy...Potential Lives being Destroyed!! c.f. Letter of the Week...to S.C.Daily..

>well in excess of 1,000,000 abortions across Australia since the beginning of the century...**What a tragedy!**

This fact will surely cause all responsible leaders to examine deeply..Quo Vadis Australia?..with a bi-partisan approach.

>Practitioners will have added stress placed upon them;the implications of this draconian legislation demeans their professional

position and work in respect to their Oath:...will destroy moral positions.

RATHER...THE POSITIVES TO LIFE!.....

**Intensify the efforts in structures of education,counselling,care for pregnant mothers,especially the teenagers who have not had good role modelling...set up more centres and programmes for all applicable age groups on all aspects of child-bearing.

Responsible adults...being accountable in human sexual relations is where it all begins!!!

Let's face the facts!!!

**Raise the ADOPTION profile to a practical,sensible,accessible platform of interaction...Many couples are eagerly waiting to adopt and care for our precious ones!The caring attitude for LIFE by all involved is the precious ingredient for warmth in our Communities!
